☐ Loadout
☐ Processing
☐ Reprocessing

Report summary and status for pending enforcement actions, permit conditions, Division Orders, and amendments:

This was a Phase I bond release inspection. The Permittee published notification of the application for bond release in the Emery County Progress on August 19, 26, September 2, and 9, 2008. An invitation letter was sent to parties of interest on November 19, 2008, and the on-site inspection was done on Wednesday December 3, 2008. The Phase I bond release area consisted of the sediment pond and access road to the sediment pond created in the 1980s and later reclaimed in January 2006 (13.9 acres). The remote Deseret and Beehive portals in Maple Gulch were also included in the Permittee's bond release submittal, but these remote sites (each 0.01 acre) were not visited as part of this inspection.

Inspector's Signature: _____

Steve Demczak, Environmental Scientist III

Inspector ID Number: 39

Date Wednesday, February 11, 2009

1. Permits, Change, Transfer, Renewal, Sale

The DOGM permit will expire on Aug. 30, 2010.

3. Topsoil

All topsoil was used during reclamation.

4.a Hydrologic Balance: Diversions

The diversions were snow covered. No water was flowing within the diversions.

4.c Hydrologic Balance: Other Sediment Control Measures

The disturb area was pocked.

8. Noncoal Waste

No non-coal waste could be seen.

10. Slides and Other Damage

No slides or other damage were noticed during the inspection.

12. Backfilling And Grading

The site has been backfilled and graded.

13. Revegetation

The site was seeded.

21. Bonding and Insurance

The insurance will expire on Aug. 28, 2009.
